

Allow staff and visitors to use their phones without fear of cross-contaminating patients and loved ones.

Sleeve Features:

- ✓ Designed for single patient use. Simply tear-off and dispose!
- ✓ Available with bag dispenser for ease of use and increased compliance.
- ✓ Sleeves allow for full functionality of phone, including text messaging and voice calls.
- ✓ Provides clarity for picture taking, and works with facial and fingerprint recognition systems.

Study Highlights:

FFG swab samples from the mobile phones of HCPs found that 11.1% of phones had bacterial contamination.

(Study by Nwankeo EO, Ekwunife N, Mofolorunsho KC)

Bacteria found includes:

-
-
-
-
-
-
-
