

## Suction Regulator Lens Caps

Boehringer offers nine different lens cap colors for your existing 3800 Series Suction Regulators. Color coding helps ensure the equipment purchased for your unit does not wander to other areas of the facility. These colored lens caps are best added at the time of manufacture, but they can also be added to your existing inventory.

Standard Black

Blue  
(P/N 9064)

Green  
(P/N 9065)
